Miss Ruth Wolff
Sessions House
Smith College
Northampton, Mass.

Dear Miss Wolff:

Our estimate for running 750' of #14 wire in our existing underground conduits, as suggested by Mr. Albert King, is FORTY-TWO DOLLARS (\$42.00). We would suggest that while we are pulling in one wire it might be wise to pull in a second at an additional cost of SEVEN DOLLARS and FIFTY CENTS (\$7.50).

If you decide to go ahead with this work we could do it very promptly. If this experiment is not satisfactory we will later give you estimates on other requests.

Very truly yours,

George W. King
Superintendent

GWK/mck
